

## EXTERIOR WASH

Hot pressure snow foam pre-wash. Two bucket hand wash using 100% lambs wool mitts and pH neutral shampoo. Hand dry with deep pile micro-fibre towel.

## ENGINE BAY

Engine bay compartment degreased, dressed and protected.

## CHASSIS & SUSPENSION

Deep steam cleaning and painting of chassis and suspension componentry.

## WHEELS & TYRES

Wheel arches and liners cleansed and protected. Alloy wheel faces, spokes, lugs and inner rims decontaminated and cleansed with alkaline based solution. Tyres dressed and protected.

## CLAY-BARRING

Body solvent tar and bug spot removal. Clay-barring of bodywork, glasswork and alloy wheels using pH neutral lubricant.

## MASKING

Rubber trim, wheels and badges comprehensively masked for machine polishing protection.

## PAINT DEPTH MEASUREMENTS

Paint condition comprehensively assessed using multiple digital paint depth measurements for each vehicle panel.

## MACHINE POLISH

Multi-stage rotary machine polishing procedure for enhancement and correction of most fine scratches, swirls, wash-marring and holograms.

## NANO-SEALANT

Paintwork, glass and alloy wheels protectively sealed using nano-technology compounds.

## CARNAUBA WAX

Multiple layers of high percentage carnauba wax applied for ultimate bodywork protection.

## INTERIOR

Wet extraction vacuum to carpets, over-mats and velour trim. Leather upholstery cleansed, conditioned and protected. Dash and switchgear dressed.

## COLLECTION & DELIVERY

Complimentary collection and return delivery service by covered transporter ensuring vehicle arrives in pristine condition.
