

PREVENTATIVE MEASURES

From checking levels and coolant concentration to regular start-ups and exercising we proactively care for your car. We even test conductance, cranking and charging performance for signs of battery or alternator related problems.

SERVICE MAINTENANCE

From routine servicing to non-scheduled repairs, full vehicle restoration and anything in between. We even take care of your vehicle's documentary administration requirements.

MOT

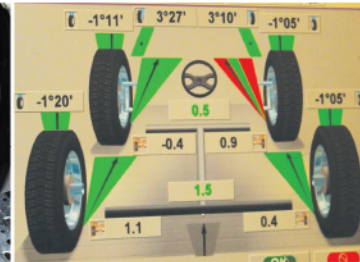

From remembering when your MOT is due to transporting your car to and from the test centre we take care of the entire process. We even wait with your car to observe the procedure itself.

WHEEL REFURBISHMENT

We return your alloys to 'as new' condition for a fraction of the cost of replacement wheels. We deal with most types of damage and most types of wheels (including polished alloys and split rims).

WHEEL ALIGNMENT

Imperfect alignment can result in irregular tyre wear and impaired handling. We take care of toe, camber and caster angle inspections using 3-D camera 4-wheel alignment technology at regular intervals.

TYRES

We take care of all your tyre management needs from best practice preservation and maintenance techniques during storage to the supply, fitment and balancing of replacement tyres.

PDR

Car park dings are annoying at the best of times, never more so when the car in question is highly cherished. We recover bodywork dents using paint-less dent removal techniques.

SMART REPAIRS

Minor cosmetic damage and blemishes can be resolved through 'smart' repairs (small medium area repair techniques). We bring a specialist onto site and manage the entire process for you.

TRIM REPAIRS

From side bolster damage to scratches, scuffs, burns, holes, tears and stains we refurbish and repair your trim work. We can even take care of partial or full re-trimming for your vehicle's interior.

CABRIOLET & TONNEAU

We restore, re-colour and protect your roof material to mitigate the effects of direct exposure to the elements. We can even take care of the supply and fitment of replacement hoods and tonneau covers.

GLASSWORK

We look after all your glass care needs from the application of protective sealants to smart repairs, privacy tinting, full replacement windscreens and anything in between.

CARE PRODUCTS

From air chambers to car covers and battery conditioners to drip trays we provide the very best in car care products. We even stock and supply a comprehensive range of valet and detailing essentials.
